To Our Valued Customers,

Due to mandates in our state over the coronavirus, we will be shutting down our production facility effective today, March 23, 2020 at 5:00pm central time.

During the shutdown, we will not be shipping any orders, however, we will still be fielding calls, taking orders and providing customer service remotely.

Because we do supply seating and trash receptacle and recycling bins to essential businesses like hospitals and transportation companies, we do have the ability to ship any order that is necessary for those types of end users. Please contact us if you have an order that must go. We want to be able to supply outdoor triages and businesses who need our products and we are here to make that happen if need be.

On a weekly basis, we will evaluate if we have enough orders to justify bringing in a small team to pack and ship those orders. The next date we would look at shipping any orders we receive today and after today, would be Monday March 30<sup>th</sup>, 2020. We will continue to practice the health suggestions from the CDC and will use sanitizing agents with our shipping team.

While this was a difficult decision to make, especially with order volume still decent, we believe doing our part to keep our employees and their families safe and to stop the spread of this terrible virus, is more important right now. We are a strong business and we will get past this. We look forward to continuing to serve you.

Best,

A handwritten signature in black ink that reads "Nick Paradise".
